ADDITIONAL NOTES

Councilwoman Greene explained why she voted no. Councilwoman Greene stated that she had always said she would bring the vote to the people and some citizens asked why she did not bring it so the people could vote. She said the merger was terrible and wasn't enough detail to protect the city or employees. You can't pass a city in two hours and 8 1/2 pages merger. She felt like there was not enough information. She states she had spoken with the employees and they were not happy with rank, there job level, there insurance cost, and was very unclear and could never get a straight answer from the personnel board. The personnel board could never tell us how it was going to work for the employees, the request to the personnel board was done after merger was agreed upon so that tells her that it was not finalized and approved by them yet. Also, there was going to be no representation for this district, and never got one financial statement from Saraland. You need to know if you are going to be paying \$51million for a school. The school board is a separate entity and would like to see a financial statement from them. She felt that the zoning boards should have talked. The Sail center was never addressed correctly. What will happen to the people who have the center reserved for the next year? We were promised three informational meetings that we never got. Saraland is going to have a meeting before they vote. Councilwoman Greene states that Saraland did a good job because they looked out for number one. Mayor states that everyone has their own opinion.
